- 1 I understand that in filling out this survey I am giving my implied consent to Transition Cornwall+ to publish and share my responses with the public via their various communication channels (including website, Facebook Page, mailing list, and community news articles).

I understand and want to complete the survey

- 2 Please enter your full name as it appears in your campaign:

William Healey

- 3 Please select the municipality in which you are running for council:

Township of North Dundas

- 4 Climate Action – Focused on energy and climate change Municipalities, large and small, around the world have the solutions needed to address climate change and can act faster than other levels of government. If elected, what will you do to engage the community to scale up efforts and accelerate the necessary local changes to address the climate crisis and its effect on citizens?

"I believe working with city staff to implement green change program I also believe working with city staff and local businesses to expand our local electric vehicle charging would be an extreme benefit in North Dundas businesses and would provide a reduction in our carbon footprint"

- 5 Active and Connected Municipalities – Focused on sustainable transportation Municipal transportation systems have the potential to contribute to life satisfaction and overall health and wellbeing. If elected, how will you ensure people of all ages and abilities in your municipality are provided with safe, accessible, affordable and attractive transportation options including active modes (e.g., walking, riding a bicycle) and transit all year long?

"As North Dundas develops an economic development program or we see expansion in homes I also think it is important that we also have an expansion in our green space I would love to see more projects in North Dundas that are in partnership with the conservation authority where we provide nature trails for people to enjoy"

- 6 Greening Municipalities – Focused on green space and trees The current minimum recommended municipal tree canopy coverage is at 40%. If elected, how will you prevent further deforestation and ensure the municipal tree canopy is protected and increased to meet or exceed the minimum recommended level. For those in rural areas, how will you work with the agricultural community to do this?

"I think agricultural space is necessary and we need to work with All parties in the community to assist in the development of green space"

- 7 Waste management – Focused on reduction and diversion All municipalities are facing the need to increase diversion to extend landfills' lifespan as much as possible. If elected, what waste management actions would you commit to reducing waste, increasing waste diversion and what targets would you set for your municipality?

"I think those targets need to be set from city staff and they need to be developed on an as needed basis going forward based on the life of the landfill I also think working with other agencies municipalities and different levels of government will assist us in finding that balance we need"

- 8 Food Security - Focused on locally grown food Access to fresh, affordable food is a fundamental human right. If elected, what action would you take to help support, promote and increase the production and use, by your community, of sustainable and environmentally sound, locally grown food.

"I definitely think North Dundas has one of the best community markets going and If elected I would definitely support more pop up markets I would also like to see expansion into our meet me on Main Street and other items where we showcase local vendors"
